PROFESSIONAL EXPERIENCE

Ahsan's Learning Center

Student Tutor

Bronx, New York

December 2021 – December 2022

- Provided personalized academic support to students ages 5 to 17, guiding them through the complexities of Math and English. Adapted my approach to fit each student's learning style, building their confidence and creating a positive attitude toward learning and growth
- Collaborated with a team of 4-5 co-tutors to design and adapt engaging learning resources and activities tailored to each student's needs. Together, we created a welcoming environment where students felt motivated and supported.
- Built strong partnerships with parents through open and consistent communication, regularly sharing insights on their children's progress. This approach ensured transparency and reinforced a supportive connection between the learning center and families

LEADERSHIP EXPERIENCE

Investment Club at Stony Brook University

Undergraduate Member

Stony Brook, New York

September 2023 – Present

- Strengthened communication and analytical skills by engaging with finance professionals in discussions and workshops, gaining firsthand insights into industry practices, and deepening my understanding of market dynamics and investment strategies.

Finance Society at Stony Brook University

Undergraduate Member

Stony Brook, New York

September 2023 – Present

- Volunteered at events organized by our student-run, non-profit society, working closely with alumni, faculty, and industry experts to provide members with meaningful insights into diverse finance career paths
- Actively participated in insightful sessions with finance professionals, contributing to discussions and gaining valuable insights into industry trends and career development strategies during regular meetings, strengthening my professional acumen and network.

Institute of Electrical and Electronics Engineers

Undergraduate Member

Stony Brook, New York

February 2024– Present

- Attended workshops on soldering, Arduino, and programming, developing a foundational interest in hands-on technology and practical skills. Gained exposure to real-world applications and built confidence in basic technical skills through interactive learning experiences

SKILLS

Computer: Google Workspace, Microsoft Office (PowerPoint, Excel, Word), Python

Language: Fluent in English and Bangla
